

# MAIL ART THUMBNAIL SKETCHES

Create three thumbnail drawings to plan out your composition. Use the Golden rectangle examples to help you divide up the composition. Place key elements along the horizontal and vertical lines created by the subdividing of the rectangle and by placing elements were the diagonals cross. These are called the “eyes”. It is better if you use an odd number of drawn elements/items of interest.

## THUMBNAIL CHECK LIST:

- ✓ My design uses the *golden ratio* to organize the composition.
- ✓ I have three different composition options.
- ✓ I have created an event within my design that is real or imagined.
- ✓ My images show thoughtful planning in the design.
- ✓ I have an odd number of drawn items of interest.
- ✓ I have a space left open for the stamp and address.
- ✓ I have carefully drawn and colored my design.
